Dear Natalia Shevchuk,

As the President of the National Youth Council of Hungary, please allow me to express our solidarity and support to the National Youth Council of Ukraine in the shadow of the escalating conflict between Russia and Ukraine and the threat of war in Europe.

Although we have not yet had the opportunity to consult, I am aware that in recent months we have been working to develop an active cooperation with each other on cross-border social challenges, including an emerging Euro-Atlantic partnership between the two youth councils and the UN Youth Delegate of Hungary.

The National Youth Council of Hungary, as part of youth civil society, will support all efforts of Hungary to resolve the situation, which is necessary to guarantee the rightful peace and safety of young people living in Ukraine, and will support a common European response to find a peaceful solution.

I wish you strength and perseverance in your work in these difficult circumstances.

Sincerely,

Péter Kovács

President
National Youth Council of Hungary
